

AHMED MABROUK

Front-End Developer | React.js Specialist

Beni Suef, Egypt | +20 112 495 3930 | ahmed.mabrouk2003a@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Front-End Developer with 2 years of freelance experience building responsive, high-performance web applications using React.js, with a strong eye for modern UI/UX, smooth animations, and polished visual detail. Skilled in translating UI/UX designs into clean, reusable components, integrating REST APIs, and elevating interfaces with motion (Framer Motion), Glassmorphism effects, and well-implemented Dark Mode. Trained through intensive technical programs at ITI and NTI, with a solid foundation in modern JavaScript, React Native/Expo, and a continuous-learning mindset backed by several international certifications. Combines strong technical execution with leadership and teamwork skills developed through 8 years of community volunteering. Recent graduate of the Faculty of Computers and Artificial Intelligence, Beni Suef National University.

TECHNICAL SKILLS

- Core: JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frameworks & Libraries: React.js, Redux / Redux Toolkit, Context API, React Router
- Styling: Tailwind CSS, Bootstrap, Sass, Responsive & Mobile-First Design
- Integration: RESTful APIs, Axios, Fetch API, JSON
- Tools: Git & GitHub, Vite, Webpack, npm/yarn, Chrome DevTools, Figma (UI handoff)
- Practices: Component-Based Architecture, Clean Code, Agile/Scrum basics, Cross-Browser Compatibility
- UI/UX & Animation: Framer Motion, Glassmorphism & Modern Visual Effects, Dark Mode Implementation (Tailwind CSS), Micro-interactions & Smooth Transitions
- Mobile / Cross-Platform: React Native, Expo, Cross-Platform UI Design

FREELANCE EXPERIENCE

Front-End Developer (React.js) — Freelance

2024 – Present (2 Years)

- Designed and developed multiple responsive websites and web applications for individual and small-business clients using React.js and Tailwind CSS/Bootstrap.
- Converted Figma/UI design mockups into pixel-perfect, reusable React components.
- Built and integrated RESTful APIs into front-end applications, handling state management with Redux and Context API.
- Delivered e-commerce storefronts, landing pages, admin dashboards, and portfolio websites end-to-end, from requirements gathering to deployment.
- Communicated directly with clients to gather requirements, provide progress updates, and ensure on-time delivery.
- Optimized application performance and ensured cross-browser and mobile responsiveness across all delivered projects.

KEY PROJECTS

Full E-Commerce Website

React.js · Redux Toolkit · Tailwind CSS · REST API · Framer Motion

- Engineered a complete e-commerce platform — homepage, product catalog with filtering/sorting, product details, cart, and multi-step checkout — with centralized Redux state across 100+ dynamic products.
- Architected the UI around a component-based structure with memoization to minimize unnecessary re-renders, and integrated Framer Motion transitions for a polished, modern shopping experience.

Real Estate Property Website

React.js · React Router · REST API · Dark Mode

- Built a full property listings website with homepage, advanced search/filtering by price and location, listing detail pages, and a contact/inquiry flow for agents.
- Integrated a fully functional Dark Mode with Tailwind CSS, and optimized image loading to keep page-load times fast despite media-heavy listings.

Admin Analytics Dashboard System

React.js · Chart.js · REST API · Context API

- Architected a full internal dashboard system with login-protected access, sortable data tables, and complete CRUD management for users, products, and orders.
- Integrated Chart.js to visualize live sales and user-activity trends, and optimized large-table rendering with pagination and memoization to keep the dashboard responsive.

Task & Project Management Platform

React.js · Context API · react-beautiful-dnd · REST API

- Developed a full Trello-style project management platform with multiple boards, category filtering, and state synced to a backend API.
- Integrated the react-beautiful-dnd library to implement smooth, accessible drag-and-drop task reordering across boards, with state managed centrally through the Context API.

SaaS Dashboard with Authentication

React.js · React Router · Context API · Protected Routes

- Created a full SaaS-style web app with secure login/register and a personalized user dashboard.
- Architected a reusable Protected Route wrapper component with React Router and Context API to guard authenticated pages, and optimized session persistence with token storage and automatic redirect handling.

TRAINING & CERTIFICATIONS

- Information Technology Institute (ITI) — Front-End Web Development Track
- National Telecommunication Institute (NTI) — Web Development Training
- Meta Front-End Developer Professional Certificate — Coursera
- React - The Complete Guide — Udemy
- The Complete JavaScript Course 2024 — Udemy
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Responsive Web Design — freeCodeCamp

SOFT SKILLS

- Leadership & Team Coordination — experienced in guiding and organizing teams toward shared goals | Effective Communication — confident communication with clients, teammates, and stakeholders
- Problem-Solving & Critical Thinking — analytical approach to debugging and technical challenges | Time Management — reliable delivery of multiple projects under tight deadlines
- Adaptability & Fast Learning — quick to pick up new tools and requirements | Attention to Detail — strong focus on pixel-perfect, polished UI
- Teamwork & Collaboration — comfortable working within cross-functional teams | Initiative & Self-Motivation — proactive, self-driven approach to work and learning
- Responsibility & Reliability — consistent track record of following through on commitments

VOLUNTEER EXPERIENCE

Young Leaders for Yourself (YLY) — HR Volunteer

- Supported HR-related activities including member recruitment, onboarding, and internal coordination, building strong organizational and people-skills.

IEEE Student Branch — Volunteer Member

- Contributed to technical and community events as an active member, collaborating with cross-functional teams on planning and execution.

Resala Charity Organization — Team Leader

- Led a volunteer team in planning and executing community initiatives — delegating tasks, managing logistics, and coordinating members to achieve campaign goals.

Life Makers — Team Leader

- Led and mentored a volunteer team across multiple community-development initiatives, strengthening leadership, decision-making, and cross-team communication skills.

8 years of continuous community volunteering across the organizations above, progressing from HR/member roles into team leadership positions.

EDUCATION

Bachelor's Degree in Artificial Intelligence

Faculty of Computers and Artificial Intelligence, Beni Suef National University

Recent Graduate

Batch Leader (Student Representative)

- Elected as the official leader and representative of my academic batch, acting as the main communication link between students and faculty staff.
- Provided academic and technical support to classmates, organized study groups, and coordinated logistics for batch-wide activities within an engineering/technical environment.

LANGUAGES

- Arabic — Native
- English — Very Good (Professional Working Proficiency)
